

## Tissue Slides for Research Use Only (RUO)

Slides are provided as it, to be used according users' own procedures. Biosystems warrants a correct morphology and general reactivity as checked with anti-nuclear homogeneous positive control. Specific reactivity for an autoantigen is not checked or otherwise assumed for a particular tissue.

Not a complete kit. Other components are necessary to perform the test.

Usage of auxiliary reagents from different lots does not compromise the result.

Tissues "For Research Use Only" (RUO) are not CE-labelled and are subject to special sale conditions.

(Only available under special request and subject to minimum orders. Ask your distributor for availability)
